Honda and the world of racing. It's the test-bed that enables us to push the limits of performance for the Honda technologies of the future.

Forever Powered by Dreams

At Honda, we're driven by the **Power of Dreams**. It encourages us to challenge convention and to think in new ways. That's why our motorcycles, cars, ATVs, marine engines and power equipment products are winning acclaim the world over. Honda is leading the way in engine technology and product innovation, and is all set to revolutionise the jet sector. Then again, wouldn't you expect that from the world's largest engine manufacturer and the number one in motorcycles, respected for its engineering excellence and renowned 'Honda' performance.

Race-Bred Performance
Sports Touring Exhilaration

VFR / ABS

VFR

Whatever you demand of it, the hi-tech VFR excels. Exhilarating when you're hitting the perfect racing-line through hairpins, and delivering impeccable road manners and comfort when you wind it up on the open road, nothing else compares. Now even more refined, the VFR further consolidates its position as one of the greatest sports tourers ever built.

At the heart of this incredible virtuosity is the VFR's legendary 782cm³ fuel-injected DOHC, V4-VTEC engine. With its unique two-stage, 2-valve/4-valve operation it provides maximum power delivery throughout the rev range and superb fuel efficiency. Now with its switching point lowered to 6,600rpm, the VFR's power output throughout is smooth and seamless, punching out raunchy torque from the turn of the key to the red line without the slightest hint of protest. And with the subtlest of refinements to its modern aero-styling, the result, as always with the VFR, is perfection on two wheels. All of which further ensure its standing as the premier sports riding and touring machine of the 750cm³ class.

VTEC disabled VTEC enabled

Advanced V4-VTEC Engine - Unique 782cm³ fuel-injected DOHC V4 engine with a unique two-stage VTEC valve actuation system provides a seamless and even spread of satisfying power.

Twin Exhausts - The VFR's distinctive triangular profile, dual 'Centre-Up' exhaust system features a new sophisticated hairline finish on canister covers. **PGM-FI** - The Programmed Fuel Injection system combines with a HECS3 oxygen-sensing catalyser system to ensure high performance while meeting strict EURO-3 emissions regulations.

Pure Riding Excitement
Inspired Riding Control

VFR

When it comes to exciting and enjoyable sports touring, the exceptional performance of the refined VFR re-writes the rulebook. Take it through the stop and start of rush-hour traffic and the VFR will deliver immediate and responsive bursts of acceleration and razor-sharp control. Find the open road and hear it roar as speeds rise and the engine comes on cam, emphatically blasting out that same gutsy torque with every twist of the throttle.

The VFR is a true sports tourer machine providing one of the finest balances of top performance and overall riding comfort to be found on two wheels. And with its lightweight aluminium 'Pivotless' frame, single-sided Pro-Arm swingarm and Dual Combined Brake System, which is also available with ABS to deliver the impressive braking performance that European riders demand for continental weather conditions, the handling of the VFR and VFR-ABS is as precise and confident as the power delivery itself. Sometimes an ultra-agile commuter, sometimes an exhilarating sports tourer, but always taking you to new heights of performance, the VFR's split personality comes together in one whole, mind-blowing, riding experience for rider and pillion alike.

Integrated Instrument Panel - Provides an easy view of operating conditions, including ambient temperature, fuel consumption and other readings.

Quad Headlights and Clear Indicators - The VFR has a graduated windscreen with a tapered nose that features brilliant quad multi-reflector headlights and clear lens indicators for sleek modern styling and a narrow front profile. **HMAS Front Forks** - Rigid and compliant 43mm Honda Multi-Action System cartridge-type front forks combine with the progressive Pro-Link rear suspension to guarantee a smooth and responsive ride.

*ABS model only.

Pillion Comfort and Safety - A deeply padded pillion seat, well-positioned foot pegs and shapely grab rails which can be detached for solo riding, ensure the pillion passenger enjoys the ride. **Seat Cowl** - Colour-matched, rear seat cowl gives the VFR a sleeker, more aerodynamic and racier image when riding solo. **HISS** - The Honda Ignition Security System completely disables the engine, and can only be started by the bike's original two certified programmed keys. A flashing LED helps deter thieves.

Tailor Your Dreams. Genuine Honda Accessories

Extend your riding pleasure from a choice of Genuine Honda Accessories. All have been specifically designed, built and tested to the same rigorous standards as your VFR. Enjoy the benefits of exact factory specifications ensuring a precise fit, superior function and integrated design. The genuine Honda article for the ultimate performance. For information on the full range of Genuine Honda Accessories contact your local Honda dealership or alternatively visit www.honda-access.com

Model shown below features a selection of Genuine Honda Accessories available for the VFR.

Equipped to Perform
Built to Last

Specifications - VFR / ABS (ED-Type)

Engine Type	Liquid-cooled 4-stroke 16-valve DOHC 90° V-4
Bore x Stroke	72 x 48 mm
Displacement	782 cm ³
Compression Ratio	11.6 : 1
Carburation	PGM-FI electronic fuel injection
Max. Power Output	80 kW/10,500 min ⁻¹ (95/1/EC)
Max. Torque	80 Nm/8,750 min ⁻¹ (95/1/EC)
Ignition System	Computer-controlled digital transistorised with electronic advance
Starter	Electric
Transmission	6-speed
Final Drive	0-ring sealed chain
Dimensions (LxWxH)	2,120 x 735 x 1,195 mm
Wheelbase	1,460 mm
Seat Height	805 mm
Ground Clearance	125 mm
Fuel Tank Capacity	22 litres
Wheels	Front: U-section 6-spoke cast aluminium Rear: U-section 5-spoke cast aluminium
Tyres	Front: 120/70ZR17M/C(58W) Rear: 180/55ZR17M/C(73W)
Suspension	Front: 43 mm H.M.A.S. cartridge-type telescopic fork with stepless preload adjustment, 109 mm axle travel Rear: Pro-Link with gas-charged HMAS damper, 7-step (*stepless remote-controlled hydraulic) preload and stepless rebound damping adjustment, 120 mm axle travel
Brakes	Front: 296 x 4.5 mm dual floating hydraulic disc with Combined 3-piston callipers, (*ABS) and sintered metal pads Rear: 256 x 6 mm hydraulic disc with Combined 3-piston calliper, (*ABS) and sintered metal pads*
Frame	Diamond; triple-box-section aluminium twin-spar
Caster Angle	25° 5'
Trail	95 mm
Dry Weight	213 kg (*218 kg)
* ABS version	

VTEC

Variable Valve Timing and Lift Electronic Control: Honda's unique system maximises power output across the rev range while minimising fuel consumption and emissions.

PGM-FI

Programmed Fuel Injection: Map-type computerised system maintains strong power and responsive performance in all conditions.

HMAS

Honda Multi-Action System: Cartridge-type front fork and rear damper design ensures a confident balance of compliant damping and precise handling.

HECS3

Honda Evolutionary Catalysing System: Oxygen-sensing system maintains an optimal air/fuel mixture for the most effective catalytic reduction of exhaust emissions.

DCBS

Dual Combined Brake System: Provides an optimised balance of front and rear braking control under any combination of inputs.

DCABS

Dual Combined Antilock Brake System: Optimises the balance of front and rear braking control while counteracting tyre slip when braking over variable road conditions.

HISS

Honda Ignition Security System: Only allows the bike to be started by its original encoded keys to effectively protect against theft.

EURO-3

EURO-3: Complies with Euro-3 emissions regulations.

Ride Safely - Read the owners' manual thoroughly. Always wear a helmet and protective clothing. Get to know your machine and its capabilities. Observe other road users' movements. Obey the laws of the road and respect the environment.

Please note - Photographic images of certain models in this catalogue may be shown with optional Honda Genuine Accessories. Please check with your dealer for details.

Top Bridge Cover & Meter Panel - A tailor made carbon print. Covers the upper triple clamp completely to give the bike a more focused look of sharp, aggressive performance. Matches the tank pad/fuel lid cover.
Pannier Inner Bag Set - Set of 2, 16-litre, strong light grey nylon fabric, pannier inner bags that protect their contents while offering handy straps for carrying ease. **Magnetic Tank Bag** - Useful storage facility providing 13-litre capacity. Complete with rain cover.

Candy Glory Red

Digital Silver Metallic

Pearl Cosmic Black

Honda machines sold in your area are those most suited to local conditions. Specifications, appearance and availability may differ depending on markets, and are subject to change without notice. For details, please consult your nearest Honda dealer.
